

TRACTION DEVICES ARE REQUIRED ON THESE HIGHWAYS DURING SEVERE WINTER WEATHER.

LOOK FOR THIS STICKER

These vehicles are pre-approved
when traction devices are required.

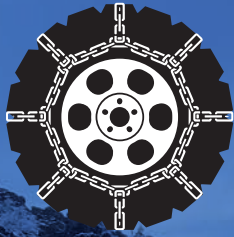

Before traveling to your mountain destination, check the UDOT traffic website or app for the latest traffic and weather conditions, cameras and more at udottraffic.utah.gov.

If you're visiting Big or Little Cottonwood Canyon, get the latest road info and conditions at cottonwoodcanyons.udot.utah.gov.

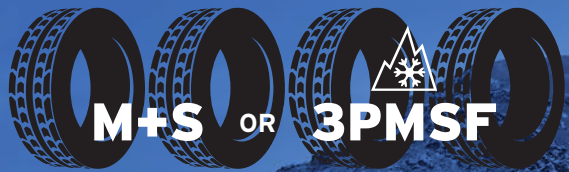

TRACTION DEVICES: KEEPING OUR CANYONS SAFE

Winter weather is challenging, especially in the canyons and UDOT wants to keep you safe. During severe winter weather, drivers must have:

STEEL LINK OR CABLE CHAINS

OR

TIRES WITH WITH M+S
OR 3PMSF RATING; WITH OR
WITHOUT STUDS

Per Utah Administrative Code R920-6

2WD vehicles must have 3PMSF rated tires
on all wheels or chains on all drive wheels.

4WD/AWD vehicles must have M+S,
3PMSF rated tires or chains on all wheels.
